

TESTIMONIALS FROM IFS CLIENTS:

1. Dave Stanley has guided us into our financial future with care and expertise. We are most grateful to have an honest and dependable financial advisor like Dave. We highly recommend him to anyone entering their senior years.

2. Dave has been a great help in developing a retirement income plan. He provided a number of suggestions and addressed questions and concerns in a very forthright manner during our first couple of meetings. No hard sell, just information and the decisions were left up to me. Now after a year and actually going into retirement, Dave is still addressing questions and making sure that the retirement income stream works as planned and expected. I would recommend Dave to anyone looking for investment advice and/or retirement income planning.

3. I can honestly say that there is no one I would trust more with our investments than Dave. He makes sure all of our questions are answered, and his explanations are so easy to understand. It is rare to find a financial advisor who genuinely cares for his clients. His commitment, values, and faith make Integrity Financial one in a million. The only regret I have is that I didn't meet him sooner!!!

5. I have been working with Dave for the past 13 years and my portfolio has improved each year that I have been with him. When the market has dipped, I have not had any losses, in fact I actually made a little. Dave has kept me up to date in how I should change or leave my current status of each of my investments and I continue to increase my portfolio each year except for the required minimum payments. Dave is a very easy man to talk to about investments and I would

encourage anyone, especially if they were about to retire, to contact him to secure your investments. The investments that I currently have allows me to not worry about losses even when the market drops. I may not earn anything but I for sure will not lose any of what I have. It would be well worth your time to talk with him about your financial status. Over the past years that I have been with him I have nearly doubled my investments. Whenever I have concerns about my investments, I give Dave a call and he always gives me solid advice and that has produced positive results.

6. I have been working with Dave for the past 10 years. My portfolio, at the time I met Dave, was very risky and I had experienced some losses. Dave recommended some instruments that would provide good returns, along with safety and guarantees. When the market dropped in 2008-2009, I didn't lose a single penny, in fact, I made money during this time.

When I am uncertain about how to invest for the next year, I call Dave and he always has trustworthy advice that has produced positive results. I have not had to worry about my finances because I know I will not lose anything. Even in a bad market, I may still gain.

If you are approaching retirement or are in retirement, I would highly recommend that you contact Dave and let him show you how you can protect your investments; suffering no losses and, in fact, experience positive gains.

7. My name is Mark, and I am happy to speak on behalf of Dave Stanley and Integrity Financial.

I was referred to Dave by a friend back in 2009, when the markets were crashing. I was beside myself as my retirement funds were evaporating. I met with Dave, who tried to calm me down as he presented the Safe Money plan. I didn't believe it right away, but Dave was patient and reassuring. He didn't pressure me, but kept on talking to me over a period of time. He answered all of my questions. I finally decided to protect what I had left, and now I am glad I did.

One of the greatest benefits of the Safe Money plan, is not having to watch the markets, or worry about crashes. In an age when it's difficult to know who you can trust; I can say for certain that you can trust Dave Stanley. ~ **Mark**

8. I am someone who would avoid financial matters as some would avoid the dentist. It was nice my husband took care of that but then he died. And as much as he tried to prepare me, I was lost. It was very reassuring that he trusted Dave and it was easy to see why. Dave is very aware of the person he is talking to and can explain what he is doing with my money and why. Even if I would rather just sign papers and go, he feels he needs to let me know what he has done and why. I feel very secure Dave is taking care of my finances and my future.

9. We are so glad that we found Dave Stanley at Integrity Financial Service. We heard him on the radio and were instantly drawn to his calm, common sense approach to investing. We are knocking on the door of our retirement years and are very averse to risk and the wild unpredictability of the stock market. The "nest egg" that we have labored so long to accumulate is now safe and secure (and growing!) thanks to Dave's expert advice. He has given us wise counsel and exhibited gentle sensitivity to our needs and concerns. Dave is not just a wise investment strategist...he is a kind, caring human being. We highly recommend Integrity Financial Service to anyone looking for a secure financial future.

10. We first heard Dave Stanley about 3 years ago on his Sunday Noon "Safe Money" Broadcast on WOOD Radio, Grand Rapids, Michigan. It was such a new concept for us.... so we made an appointment! Dave is an outstanding, faith-based, honest, down-to-earth, knowledgeable man, and easy to talk to; he was interested in finding out "where we were at" with our goals, etc., with no pressure and not "pushy". In about a week, he made a plan/recommendation for us; and thoroughly went over it with us in his office, answering any and all questions we had, assuring us he keeps a watchful eye on any new developments. He has most definitely gone the "extra mile" for us! We have appreciated his sincere efforts and guidance and are only sorry we didn't know about him before! Thanks again, Dave to you and your helpful office staff, too! "It's a Good, 'Settled' Place to Be"!

After retiring and moving to Grand Rapids, Max and I both wanted to choose a financial manager for our funds. It was difficult leaving behind those previous contacts in whom we had built trusting relationships. We were given Dave's name by a family friend. We went in to meet with him and he was very helpful. Never in a rush and an excellent communicator. His experience and integrity and his code of ethics in business are related to his relationship to family, friends, and God.

Thank you Dave.

I've enjoyed working with Dave. I have found him very patient, knowledgeable and honest. I would recommend Dave to anyone.

Brian S.

It was good Dave told us that we had a return of 6.5% on our IRAs... I'm 79 years old and there needs to be more Dave Stanleys in the world today....

We first heard of Integrity Financial through a radio program. At the time I was getting very frustrated watching the Stock Market eating up too much of the money we were investing. Listening to Dave Stanley piqued my interest and so we went to see him. In my opinion he was a Godsend for us. We moved money over to Integrity Financial and started to have peace of mind. No more watching our money disappear in Stock Market fluctuations. It is certainly nice to know that our future is more secure and to know that we are not losing our retirement to the Stock Market. Dave Stanley's investment strategy has been very beneficial for us.

Hello. I first heard of Dave S and Safe Money radio, so I called Dave and asked him some questions he answered my questions. He always answered my questions, was super nice, patient and very good at his job. Dave is a great example and definition of a Fiduciary. Someone who cares for people and is very trustworthy. I worked in a factory for almost 40 years and I was ready to get out, so between my 401K and my pension Dave was able to get me out of there at 59 years old. Now my investments with Dave are in safe money. I don't have to worry anymore about losing money or what the stock market does, between my Heavenly Father and Dave S I have never been so happy.

Thank you, Integrity Financial Service.

DJ

Dave has helped us feel secure that we will have an income for life.

Dave was recommended to us 9 years ago. We were losing money right and left in the stock market. Dave showed us a way to keep what was left, plus we received a bonus for joining. We also were guaranteed 8.5 interest for the first 10 yrs. at that time. We have had a great relationship with Dave over the years. He is passionate about keeping the resources we have. We like the peace of mind it gives us. We would highly recommend him.

My name is Gary, and I would like to tell you about our experience with Dave Stanley and Integrity Financial.

We were referred to Dave by a friend back in 2008 when the market was crashing. We were quite concerned and fearful that we were going to lose a huge part of our retirement accounts that we had worked very hard over the years to build. Dave met with us and presented the "Safe Money Plan" and assured us that there was a better way. We moved our retirement accounts out of risky market investments that were dropping, into equity protected accounts with complete safety and guarantees. Since making that move, we have never lost a penny and our Lifetime Income Account has continued to compound annually for a lifetime of income that we can never outlive, and that gives us peace of mind.

We now have the opportunity to build a secure and flexible retirement plan that allows us to live our retirement on our terms. Even though Dave is our financial advisor, we have also gained a friend who is looking out for our best financial interests.

Gary

In our late 60's, we were uncertain about our future financial security. The stock-market was in a scary situation.

Dave presented us with a plan that we felt offered security and that took a lot of our stress about our financial future away. We didn't lose any money in the '2008 Down-turn'.

Dave has always been available to answer our questions and provide us with options that were a good fit for us. -Thanks Dave.

Rog

Well I've been with Integrity for 3yrs and have had nothing but good experiences. The reason I contacted Dave was I went to my bank to transfer my 401k over because I changed jobs and my new job didn't have a 401k. And the bank gave me a bad vibe like they were trying to sell something. And when I contacted Dave he made me feel comfortable.

Jeffrey

Easy to work with, knows his products well. Communicates well.

RDB

When we first met Dave through Safe Money Radio we were a little confused about our investments and thought we had something that we didn't really have.

Dave's analysis of our investments made it clear to us that we could do much better; and being of retirement age, we also wanted safety and guarantees.

Dave presented a plan that would give us a nice bonus to help make up the losses that we had experienced earlier.

Since going to Dave, we have experienced very attractive guaranteed returns, and no losses. Now we are starting to draw monthly income that will last us the rest of our lives.

After checking Dave out thoroughly, we found he had an impeccable record, and no complaints. In an age when it's hard to find honesty and integrity, we have found Dave to possess both."

Our financial relationship with Dave Stanley has been since 2012. He was very attuned to our financial needs and what we needed to do to grow our money to retire with no worries. Dave analyzed our needs and our wants. He recommended a customized safe money portfolio that would grow in a dependable way to give us complete safety on the downside, and lifetime income we could never outlive. We have had no losses no matter what the market is doing. Dave is very accommodating to our schedule and met with us whenever we needed to see him. My name is Charlie, and this is my story about Dave Stanley and Integrity Financial -

I heard about Dave and the Safe Money Program on the Radio a couple of years ago. I called the number provided and received the Safe Money Book, read it and then set up an appointment.

At the first appointment Dave started to educate me on Safe Money, answered all of the questions that I had brought with me from the book and provided me with several investment options. I read through all of that information and set up another appointment.

Dave again patiently answered all of my questions which I had brought about the investments, and about the book, that were raised from reading the additional material provided.

Finally, when I was comfortable, and understood Safe Money, I scheduled an additional appointment to answer my remaining questions, which Dave with his expertise always was able to answer without hesitation and I made the decision to invest with Dave Stanley and Integrity Financial.

Please note almost all of these sessions were three to four hours as I was starting from ground zero and had a lot of questions that Dave took the time to answer, with no obligation for me to invest.

This decision has allowed me not to worry about that portion of my portfolio through all of the market swings that have occurred in the last few years.

I have put my trust in Dave Stanley and Integrity Financial and they have not disappointed.

Charlie
